Section One: Overview and Reporting Requirements

Chapter 1: General Overview

Purpose of Report Guide

The Report Guide is a companion to each SMMC Managed Care Plan's Contract (Contract) with the Agency for Health Care Administration (Agency). It provides details of plan reporting requirements including instructions, templates, and submission directions.

This Report Guide provides report guidance and requirements for the following types of Managed Care Plans:

- ✓ Long-term Care Fee-for-Service Provider Service Networks (LTC FFS PSNs)
- ✓ Managed Medical Assistance Health Maintenance Organizations (MMA HMOs)
- ✓ Managed Medical Assistance Capitated Provider Service Networks (MMA Capitated PSNs)
- ✓ Managed Medical Assistance Specialty Plans
- ✓ Managed Medical Assistance Children's Medical Services Network (MMA CMSN)
- ✓ Comprehensive Long-term Care (LTC) Plans

Note: This edition of the Report Guide solely reflects the requirements of LTC and MMA Managed Care Plans.

Chapter 2, General Reporting Requirements, covers the general report submission and certification requirements for the SMMC Managed Care Plans. After these introductory chapters, the remaining chapters cover any specific report certification information and specific individual report instructions and formats.

The individual report chapters are organized in the following manner (all in respective alphabetical order):

1. Attachment II, Core Contract Provisions (CORE) – these reports apply to both LTC and MMA plans.
2. Attachment II, Exhibit II-B, Long-term Care Program – these reports apply to LTC plans.
3. Attachment II, Exhibit II-A, Managed Medical Assistance Program – these reports apply to MMA plans.

Within each individual report chapter, the following report-specific items are covered:

- Managed Care Plan types that are required to provide the report.

- Report purpose.
- Report frequency requirements and due dates.
- Report submission requirements.
- Specific instructions and requirements for completion, including format and any variances specific to a particular Managed Care Plan type.
- Report template.

Reading this Report Guide should produce the following four results:

- An understanding of the Managed Care Plan's responsibility for report submissions.
- A clear concept of what each report requires and how it is best fulfilled.
- A specific report format to maintain consistency in the data flow.
- A single location for all format requirements for all contractual non-X-12 reports that must be submitted by the Managed Care Plans to the Agency.

This Report Guide is referenced in each Managed Care Plan's Contract with the Agency, and each report is summarized in the Contract's Summary of Reporting Requirements Table.

The Managed Care Plan must comply with all reporting requirements set forth in its Contract and this Report Guide. All of the reports within the Report Guide are a contractual obligation of the Managed Care Plan to the Agency, and the Managed Care Plans are responsible for their accurate completion and timely submission as specified in the Contract and Report Guide. Non-compliant Managed Care Plans are subject to liquidated damages and sanctions as specified in the Contract.

Report Guide Updates

As specified in each Managed Care Plan Contract, the Agency reserves the right to modify reporting requirements with a 90-calendar-day written notice to the Managed Care Plan, unless otherwise specified. The Agency will post updates to:

http://ahca.myflorida.com/medicaid/statewide_mc/mma_plans_report_guides.shtml

In general, the Report Guide may change on a calendar quarter basis. Changes in templates between Report Guide postings are provided on the website. The latest revised version of the Report Guide will be displayed with its effective date.

Chapter 2: General Reporting Requirements

General Report Certification Requirements

In addition to the specific report requirements found in subsequent chapters, all Managed Care Plans are responsible for fulfilling basic requirements that apply to all submissions. These include submitting an attestation assuring the accuracy, completeness, and timely submission of each report.

Some chapters have designated file names and/or formats for these federally required attestations (also referred to as “certifications”). However, for chapters where a file name and/or format is not designated, Managed Care Plans must create and submit a PDF file with a file name that includes the word “attestation” and the date it is being submitted. The attestation can simply state:

“I, <<NAME OF PLAN OFFICIAL>>, certify that all data and all documents submitted for <<Report Name and Report Period>> are accurate, truthful, and complete to the best of my knowledge, information and belief.”

The attestation should be on the plan’s letterhead, signed by the official referenced on the attestation itself, and it should include the official’s specific title. The attestation PDF file should be submitted to the same person, location, and in the same manner as the report submission unless the specific report chapter indicates otherwise.

The Managed Care Plan must submit its attestation at the same time it submits the certified data reports (see 42 CFR 438.606(c)). The attestation (and delegation of authority if applicable) must be scanned and submitted to the Agency as one PDF file. It must be submitted with the certified data unless specifically indicated in the individual report chapters. A sample delegation of authority letter is provided by the Agency at:

http://ahca.myflorida.com/Medicaid/statewide_mc/index.shtml#ltcpr

Report Accuracy and Submission Timeliness

As specified in the Contract provisions, general reporting requirements include the following:

- The Managed Care Plan’s chief executive officer (CEO), chief financial officer (CFO) or an individual who directly reports to the CEO or CFO and who has delegated authority to certify the Managed Care Plan’s reports, must attest, based on his/her best knowledge, information and belief, that all data submitted in conjunction with the reports and all documents requested by the Agency are accurate, truthful and complete (see 42 CFR 438.606(a) and (b)). The written delegation of authority must be contemporaneous and renewed each calendar year.

- The deadline for report submission referred to in the Contract provision is the actual time of receipt at the Agency bureau or location, not the date the file was postmarked or transmitted.
- If a reporting due date falls on a weekend or holiday, the report must be due to the Agency on the following business day.
- All reports filed on a quarterly basis must be filed on a calendar year quarter.

SMMC SFTP Site Access

Most reports are submitted to the Agency's SMMC SFTP site. To access the SMMC SFTP site, contact your Agency contract manager.

Report Naming and Identification

A report naming convention has been established for all reports and attestations (including supporting submission documents) with the following exceptions:

- Audited Annual and Unaudited Quarterly Financial Reports
- CHCUP (CMS-416) and FL 80% Screening
- Provider Network File
- Quarterly Fraud and Abuse Activity Report
- Suspected/Confirmed Fraud and Abuse Reporting
- Quarterly and Annual Medical Loss Ratio (MLR) Reports
- Reports submitted directly to the Agency's Fiscal Agent or other delegated entities outside of the Agency will maintain their own file naming convention.

This file naming convention uses the plan name identifier as well as a unique 4-digit number assigned to each report, attestation and submission document. There are also codes for the report year, report year type and frequency of each report. These codes are provided in the Plan Identifier Table, Report Code Identifier Table, Report Year Type Table and the Frequency Code Table, respectively, later in this chapter. The plan name identifiers, report code identifiers, report year type identifiers and report frequency codes are all used as part of this SMMC file naming convention.

- The file naming convention is as follows:
 - The Managed Care Plan's three character identifier from the Plan Identifier Table
 - Four-digit year in which the report is due
 - Two-digit month in which the report is due
 - One-character identifier for the report's year type from the Report Year Type Table
 - One-character identifier for the report frequency from the Frequency Code Table

- Two digits indicating the specific data period being reported from the Frequency Code Table (Reporting Data Period)
 - Four-digit report code identifier from the Report Code Identifier Table
- There are **NO** dashes, spaces or other characters between each field.
 - File naming convention examples are provided at the end of this chapter.
 - Most of the report file names not using this file naming convention require the use of the unique alphabetic 3-character plan identifier.
 - For reports that require supplemental documents, the document should be submitted in a .zip file using the file naming convention for that report. This .zip file may not be password protected.
 - Resubmitted or corrected reports must be submitted with the same file name as the original report. **Exception:** If the resubmission is due to a correction needed for an incorrect file name, the file name must be the correct file name using the correct file naming convention.
 - **Late submissions** must be filed with the information required for the on-time filing. For example: a report due in July, but filed in August, must state the month of July (07) not August (08), in the file name. A report due in December 2014, but filed in January 2015, must state the year 2014 in the file name (not January 2015).

Any report that does not require this file naming convention must have a designated file name which can be found within the individual Report Guide chapters, under the section labeled “Submission.” Please submit all such reports and their accompanying attestations in the file formats designated within the “Submission” sections. It is important to follow the file naming designations specified in the individual report chapters in order to maintain submission validity.

Some reports will require the use of a two-digit numeric county code. The two-digit numeric county codes to be used for all such reports are provided on the County Code Table in following pages.

General Submission and Size Limits

In addition to complying with the designated file naming convention and format, the following requirements should be adhered to:

1. The Managed Care Plan may not alter or change report templates in any way.
2. The Agency’s email server security protocol allows documents with the “.zip” file extension; however, for reports or documents emailed to the Agency, the file

must be within a ten (10) megabyte size limit. If larger files must be sent, the Managed Care Plan should discuss potential alternative delivery methods with its Agency contract manager.

INSTRUCTIONS:

The Managed Care Plan's primary contact must obtain access to the MPI-MC SFTP site through the Agency's MPI Business Manager (or designated representative). The Managed Care Plan user must implement Agency-approved FTP client software, such as FileZilla, or utilize the web-transfer client protocol provided by AHCA. Security credentials (a single user ID and password) will be provided via encrypted email once the user's registration is approved. Use the appropriate host name for the MPI-MC SFTP site: [sftp.ahca.myflorida.com](ftp://sftp.ahca.myflorida.com), port 2232. The plan is responsible for plan user security and must maintain the user security access for plan staff. The MPI-MC SFTP site is limited to submitting and retrieving electronic file information within the plan-specific folder. The plan password is reissued by email only to the approved registered user, and will expire every 90 days in accordance with the Agency's security protocol. Password reset reminders and instructions will be sent to the registered user (account holder) seven days prior to expiration, and upon expiration. The Managed Care Plan must successfully submit a test file within 10 calendar days after the password is issued and as requested by the Agency.

The registered user will be notified by email in the event of an account lock out due to multiple, incorrect password attempts. The primary account holder will be notified by email when the account has been locked. The account lockout will last for 30 minutes, and then it will be automatically cleared by the system. Users can have the block cleared immediately by contacting their AHCA MPI-MC Site Administrator (MPI Business Manager).

Entering the incorrect username (i.e., a username that does not exist) will cause the user's IP address to be blocked. For the IP address block to take place, the user must attempt to connect with the incorrect username more than five times in 60 seconds. This form of lockout must be cleared by AHCA's network staff. The external user must contact their AHCA Site Administrator (MPI Business Manager) for MPI reporting at MPIBusiness.Manager@ahca.myflorida.com to resolve this issue.

Termination of access is required in instances where there is a change of responsibilities or employee termination. A request to terminate a user's access must be submitted by the Managed Care Plan's primary contact and must include the user's full name, position title, and business email address. The Managed Care Plan must submit the request by email to MPIBusiness.Manager@ahca.myflorida.com. The external user must contact their AHCA Site Administrator (MPI Business Manager) for MPI reporting at MPIBusinessManager@ahca.myflorida.com to resolve this issue.

Chapter 36: Affordable Care Act (ACA) Primary Care Physician (PCP) Payment Increase Report

SMMC PLAN TYPES

The following Managed Care Plans must submit this report:

- | | <u>Plan Type</u> | |
|--|------------------|--------------------------------------|
| <input checked="" type="checkbox"/> Comprehensive LTC Plan | | <input type="checkbox"/> LTC FFS PSN |
| <input checked="" type="checkbox"/> MMA HMO | | |
| <input checked="" type="checkbox"/> MMA Capitated PSN | | |
| <input checked="" type="checkbox"/> MMA Specialty Plan | | |
| <input checked="" type="checkbox"/> MMA CMSN Plan | | |

REPORT PURPOSE:

The purpose of this report is for the capitated Managed Care plan to provide the Agency with accurate data reports that document the primary care physician's (PCP's) eligibility and eligible provider payments, including vaccination administration payments, made to the physician relative to the federal Affordable Care Act provision for increased payments.

FREQUENCY & DUE DATES:

This report is due quarterly, by the last day of the month after the end of the reporting quarter.

SUBMISSION:

Using the file naming convention described in Chapter 2, the Managed Care Plan must submit the following to the MPA SFTP site:

- The Affordable Care Act (ACA) Primary Care Physician (PCP) Payment Increase Report.
- A report attestation described in Chapter 2.

Submission of Data to the MPA FTP Site

To avoid an excessive number of sub-folders, Managed Care Plans must submit their data to the MPA FTP site in the folder "MPA\toMPA\PCP Fee Increase." Where multiple versions of files for a specific quarter are submitted, a suffix of "_2", "_3", etc., should be added to the file name to indicate the sequence number of the submission.

INSTRUCTIONS:

1. Quarterly Reporting

The Managed Care Plan quarterly reporting requirement consists of two items: (1) a quarterly summary utilization report for each quarter of 2014, for which services are provided to MMA enrollees, and (2) supporting data to identify the corresponding encounters. The quarterly report must be submitted using the Agency-supplied template and the included technical instructions attached, and the specific requirements for the PCP fee increase documentation delineated below.

- a. The content and format for the quarterly summary report are specified in the "PCP Fee Increase Summary Information.xlsx" tab.
- b. The content and file layout for the PCP fee increase supporting encounter data are provided in "PCP Fee Increase Encounter Data File Layout.xlsx" tab.
- c. The first submission of the MMA quarterly summary report and the supporting encounter data is due on or before July 31, 2014. This submission covers eligible services provided between May 1, 2014, and June 30, 2014, with payment dates no later than June 30, 2014. Subsequent submissions are due according to the schedule in Frequency and Due Dates above.
- d. The Managed Care Plan must ensure that the summary report and PCP fee increase supporting encounter data include payments and any adjustments to payments, positive or negative.
- e. The Managed Care Plan must not include ACA PCP fee increases (differential) in its regular, ongoing encounter data submissions to the Agency (see Statewide Medicaid Managed Care Contract, Attachment II, Section VIII, E., Encounter Data Requirements).
- f. The Managed Care Plan must not include payments for primary care services provided to MediKids in the summary reports and encounter data supporting documentation submissions for the ACA PCP fee increase payments.
- g. All services provided by medical school physicians, and claims denied by Managed Care Plans are not eligible for the ACA PCP fee increase. Non-denied fee-for-service claims submitted by Managed Care Plans must include a dollar amount not equal to zero to be eligible for the PCP increase payment. The dollar amount should represent the amount paid by the Managed Care Plan and any amount paid by third parties. Thus, the field designated for reporting payment amount should contain one of the following, as appropriate:
 - (a) the amount paid by the Managed Care Plan, if a third party has paid nothing;
 - (b) the sum of the amount paid by the Managed Care Plan and a third party or parties; or
 - (c) the total amount paid by a third party or parties, where the Managed Care Plan has paid nothing.

The only exception to the requirement that non-denied fee-for-service claims must include a payment amount is for vaccine administration codes (90460, 90471, and 90472). These codes are eligible for the PCP increase even when the Managed Care Plan has paid the physician for the vaccine under product (serum) codes. In such cases, it is permissible to include vaccine administration claims with a payment amount of zero in data submitted to the Agency to support the PCP payment calculation.

2. Corrections to Previously Submitted Data

Once payment for a quarter has been made by the Agency, data corrections identified by the Managed Care Plan may still be submitted and applied retroactively. However, corrected data may not be submitted until four months after the payment date. This will allow plans time to finalize corrections. For submission of corrected data, Managed Care Plans should submit both a summary report and supporting encounter data containing only the corrected items.

VARIATIONS BY MANAGED CARE PLAN TYPE:

No variations.

REPORT TEMPLATE:

The ACA PCP Payment Increase Report Agency-supplied template must be used as specified in the Report Guide. No alterations or duplication must be made to the report template by the Managed Care Plan. The Agency-supplied template can be found below:

The Agency's template consists of the following:

- PCP Fee Increase Encounter Data File Layout.xlsx - http://ahca.myflorida.com/Medicaid/statewide_mc/pdf/LTC/Report_Guides/ACA_PCP_Payment_Increase_Encounter_Data_File_Layout_SMMC_MMA_06012014.xlsx

To help ensure that the Agency maintains up-to-date records of all SMMC enrollees who have been diagnosed with HIV/AIDS – in particular, those that might not have been captured by the Agency’s monthly disease determination algorithm – and thus ensure that managed care plans are compensated at the proper rate. Submission of this report is optional for all applicable SMMC managed care plans.

FREQUENCY & DUE DATES:

- Due monthly – if submitting this report, managed care plans must submit by close of business on the second Thursday of each month.

SUBMISSION:

Using the file naming convention described in Chapter 2 of this guide, the health plan shall submit the following to the SMMC SFTP Site:

- d. Plan ID (seven digits)
2. The list submitted by the managed care plan must be a **cumulative** list of enrollees and can contain only those who are currently enrolled in the managed care plan. Once a managed care plan has begun submitting enrollees, it must continue to submit a cumulative listing each month in order to continue to receive the appropriate HIV/AIDS capitation payment.
3. Capitation rates generated by the submitted reports will be applied to the managed care plans for the following month's enrolled population.
4. No file or attestation is due if the managed care plan chooses not to submit this supplemental data file.
5. For plan-identified enrollees, documentation of completed lab testing as interpreted by a licensed physician must be included in the enrollee's medical record prior to reporting the enrollee to the Agency as having an HIV or AIDS diagnosis. The managed care plan must provide the Agency with such enrollee's test results upon request.

VARIATIONS BY HEALTH PLAN TYPE:

No variations.

REPORT TEMPLATE:

The file submitted must be a fixed-width text file. Below is an example of what a record on the file might look like:

The above record indicates that the enrollee with Recipient ID 1234567890 and birth date January 1, 1980 has AIDS (the HIV/AIDS indicator is equal to 2) and is enrolled in the managed care plan with a Medicaid managed care plan provider ID of 987654321.
