

Overstrike Characters

Signed numeric (SN) fields must contain an overstrike character (see below).

Examples:

100.00 = 1000{
-100.00 = 1000}
123.45 = 1234E

To support signed values, use the following lookup table.

Digit	Positive Character	Negative Character
0	{	}
1	A	J
2	B	K
3	C	L
4	D	M
5	E	N
6	F	O
7	G	P
8	H	Q
9	I	R

Please note, the last digit is required to be Alpha Numeric containing one of the above characters.
